

One Call Medical Launches Newly Redesigned Website

Diagnostic Radiology & Neurodiagnostic Network Site Now Offers Streamlined Navigation, Education Portal, and Industry News Briefs

Parsippany, NJ (May 11, 2009) - One Call Medical (OCM), the nation's premiere leader in diagnostic management solutions for workers' compensation, today announced the launch of its newly redesigned website at www.onecallmedical.com. This redesigned site provides the following enhancements:

- Improved access to information about One Call Medical's nationwide specialty network, as well as diagnostic radiology and neurodiagnostic services.
- Educational opportunities, such as continuing education units (CEU) and web-based courses through OCM University.
- Expert commentary and analysis of today's latest diagnostic news and trends through the OCM Knowledge Center.
- Streamlined navigation throughout the site.

"We set out to redesign our website with a clear focus on providing various levels of educational content and the latest industry information to a growing and diverse audience," said Bill Colacurcio, Director of Marketing at One Call Medical. "Users can better expedite a search for what they need by using Quick Links or user-defined navigation. We are confident the redesigned site will provide a more enriching user experience for payers, providers and patients."

Website visitors will immediately notice the changes—starting with a fresh, more modern look and feel, more in-depth diagnostic management and clinical expertise, and dedicated user-specified links (for providers, payers, and patients), designed to enable users to navigate quickly into their areas of interest.

"We're particularly excited about the launch of the new OCM Knowledge Center and OCM University," said Don Duford, President of One Call Medical. "Through these online venues, we will be able to provide the type of educational opportunities and informational updates that claims managers, claims examiners, and nurse case managers have requested through our extensive market research."

The new features on the One Call Medical website include:

- The OCM Knowledge Center. Accessed via a convenient link at the bottom on the homepage, this portal offers the latest industry news, web-based events, as well as client case studies that illustrate proven cost savings and compelling benefits when leveraging

OCM programs. Visitors can access industry related articles, learning resources, and an entire section devoted to patient advocacy.

- **The OCM University.** A key part of the OCM Knowledge Center is the new OCM University, an extension of OCM's popular CEU Program. OCM University offers web-based continuing education courses that claims examiners and nurse case managers can participate from the convenience of their home or office. Courses are offered on a monthly basis and are free of charge. To register, visit the OCM Knowledge Center and select Webinars/CEUs for more information and to view the calendar of upcoming events.
- **OCM News Briefs.** This web-based e-newsletter is designed to increase awareness and understanding of industry issues. Each month a News Brief provides insight into one of today's key challenges and the solutions available. To subscribe, visit the OCM Knowledge Center, select Articles/News Brief, and click on the link to sign up now.

About One Call Medical, Inc.

One Call Medical, Inc. (OCM), the leading specialized Preferred Provider Organization, offers a nationwide network of fully credentialed high quality facilities and reduced cost for radiology and neurodiagnostic services.
